

A WALK IN THE PARK

Children and adults walk on the beach path Saturday during The Children's Clinic's 16th Annual Beach Walk in Long Beach, above. The 5k charity walk is one of the clinic's largest fundraising events. Through it, event organizers hoped to raise \$100,000 to fund the services and programs the clinic provides to uninsured, low-income and high-risk residents of the Southern California area. The event also included a health and fitness fair and a barbecue provided by Long Beach firefighters.

Walkers get started on their way, left. The event was held at Marina Green Park, and the walk began nearby at the intersection of Shoreline Drive and Linden Avenue, at 9 a.m. It followed the bike path along the ocean.
